Memorandum of Record

Re: Dr. Afraaz Irani (PGY-2 Orthopaedic Resident)

1. Dr. Irani demonstrated significant lack of compassion and empathy in a patient's care in the initial trauma resuscitation. Mr. B. sustained a near forearm amputation and Dr. Irani failed to provide adequate pain medication and ignored nursing requests for same during his initial evaluation. During this encounter he requested the nurse to lie about the initial irrigation / debridement of the traumatic wound.
2. He has repeatedly demonstrated poor communication skills with patients, families, peers, and attending physicians.
3. He has repeatedly demonstrated poor time management with frequent tardiness to required conferences, clinics, and the operating room.
4. He does not demonstrate effective prioritization of clinical duties. This has resulted in additional duties for other residents.
5. He has provided substandard patient care (e.g. closing wounds with Vicryl suture; not evaluating a VA total joint patient with immediate post-operative cellulitis).
6. He received substandard evaluations during his internship.
7. He has displayed a significant lack of attention to detail in his initial PGY-2 rotation.

These deficiencies have persisted despite several verbal counseling sessions from his chief resident, his attending physicians, and his program director.

The attending physicians of the Department of Orthopaedic Surgery would recommend that Dr. Afraaz Irani be placed on level II academic remediation from 15 AUG 11 to 01 DEC 11.

Remediation measures would include:

1. Dr. Irani would provide improved patient care, including pain management and wound management / closure.
2. He will answer his pages appropriately and immediately.
3. He will see all orthopaedic consultations as soon as possible.
4. He will display improved communication to peers, ancillary staff, and attending surgeons.
5. He will develop a Grand Rounds presentation of Effective Communication Skills.
6. He will demonstrate improved organizational skills and prioritize clinical duties effectively.
7. He will demonstrate improved attention to detail while on clinical rotations.
